

Two great Outreach Opportunities:

Option 1

Bridge will be sponsoring food bags for our local elementary children that are being affected by the Covid-19 epidemic. Here are the simple steps for getting involved:

1. Stop by Bridge and pick up an empty grocery bag from the main entrance breezeway, it will be unlocked.
2. The bag will have a shopping list of suggested groceries that you can take to the store.
3. After purchasing the items on the list, bring them back to Bridge and place them in the breezeway.
4. We will deliver the bags to the school as they arrive.

Option 2

Bridge would also like to encourage anyone in our Bridge family that can sew to consider making protective masks for our medical workers. As you complete masks you may deliver them to the church and leave them in the front entrance breezeway. Here is a you TubeVideo that provides a basic pattern and instructions. <https://youtu.be/fySsaOojEVM>

Thank you for your willingness to serve during this difficult season.
